

VO's TV Platform as a Service

Deliver remarkable TV experiences to connected devices

VO TVaaS provides a powerful, fully-managed, fully-hosted TV Platform in the cloud.

Rich TV Platform

TVaaS provides a feature-rich and modular TV platform to create, protect and deliver any TV service to any device. Complemented by strategic partners for content ingestion, CDN and payment, it provides all you need to succeed.

High agility and fast time to market

Guaranteed quality of experience for millions of viewers.
Scales to control traffic spikes and heavy usage with a strict SLA.
Up and running within days.

Maximize engagement with advanced analytics

Integrated business analytics include audience measurement, user attribution, search and revenue analysis. These features enable optimization of customer engagement and monetization opportunities.

"We chose Viaccess-Orca for many reasons, one of which is their proven record, especially in Europe – they provide stability with flexibility".

*Min Swe Hlaing
Managing Director, Global Innovations Media*

24/7 monitoring and SLA compliance

VO's TVaaS Operation Center offers continuous monitoring and tracking of availability and security issues

Minimized Risk

TVaaS uses a pay-per-use model associated with an OPEX model.

Start your service with almost no risk

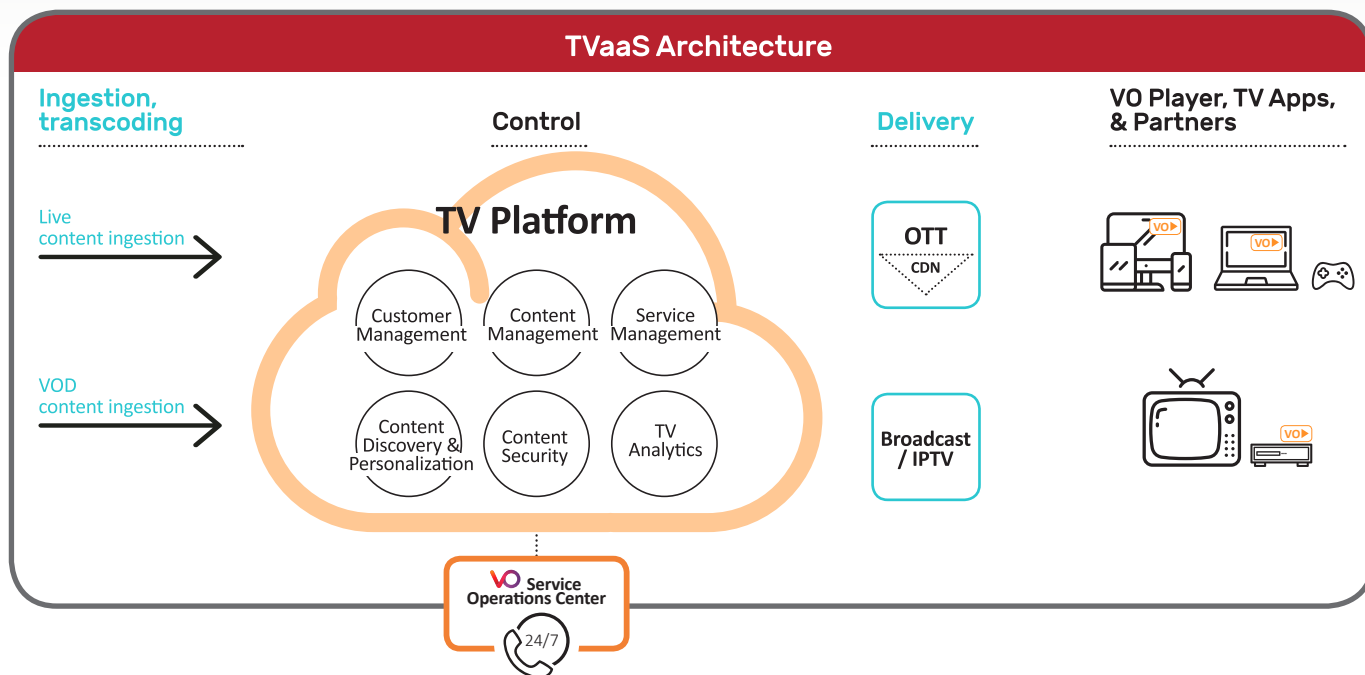

It's smarter, it's safer. It's VO.

VO's OPERATIONS CENTER

VO TVaaS offers an enhanced agile service, enabling TV operators to get a jump on the competition and provide new and innovative services to their customers.

Enables fast and continuous delivery

- Swift initial deployment
- Agile architecture enables the integration of subsequent iterations and quick onboarding of new capabilities

Premium Content Protection

- Multi-DRM supports Widevine, PlayReady, FairPlay or VO's DRM
- Powered by VO's expert and proven security services

Unified Management

- One consistent unified console for the entire service
- Encompasses content, services, customers, devices, personalization and analytics

Advanced Personalization

- Data-driven content discovery and recommendations that enable advanced personalization of the viewer's experience

Smooth customizations

- Enables customization of mobile apps for multi-screen TV and video services

Established Ecosystem

- Well-established partner ecosystem provides a complete TV delivery service
- Smooth integration of legacy system components with REST API management and connectors

Why VO?

- Proven, scalable, top-quality Cloud and On-Premise TV platforms
- Global provider to 27 million viewers, backed by the Orange Group
- Proven, experienced team that provides superior professional and managed services
- Large ecosystem of partners and integration connectors

See how easily you can create marvelous TV experiences with VO's fully-hosted, fully managed TVaaS.
