

Orange Belgium Strengthens Its Consumer and B2B TV Services With Viaccess-Orca

Long-Standing Customer Renews Multiyear Contract for VO's Secure Video Player, Content Security, and Device Monitoring Solutions

PARIS — Sept. 24, 2026 — Viaccess-Orca (VO), a global leader in TV platforms and content security solutions, announced today that Orange Belgium has renewed its contract with VO for technologies spanning content security, playback, and quality-of-experience monitoring on subscribers' devices.

A VO customer since 2014, Orange Belgium relies on VO Secure Video Player, Multi-DRM, QoX, and Conditional Access System (CAS) solutions across multiple TV environments.

In addition to its consumer TV services, Orange Belgium uses VO's CAS technology for its B2B offerings, including deployments in hotels, hospitals, and other organizations where service availability, quality, and reliability are particularly important. Together, these technologies provide Orange Belgium with a consistent foundation for delivering secure, reliable TV services across a variety of environments and use cases.

"Viaccess-Orca has supported our TV services for many years and understands the varied requirements of our operations," said Philippe Toussaint, CTO at Orange Belgium. "Having proven solutions, we can fully rely on is essential to ensuring the stability and high level of service quality our customers expect."

The renewal builds on the companies' long-standing relationship and demonstrates VO's ability to address diverse operational needs through a scalable combination of content security, playback, and service-quality technologies.

"Orange Belgium is a long-standing VO customer, and we are proud to be able to accompany its teams in the security and player/analytics space up to 2030" said Thomas Kohler, CEO of Viaccess-Orca .

More information about VO and the company's solutions is available at www.viaccess-orca.com.
