VO's ANTI-PIRACY SERVICES | IPTV
Adapting the right measures to each form of piracy

Part of the VO Anti-Piracy Center, the IPTV anti-piracy solution is specifically designed to address illegal live streaming through pirate STBs and applications

Integrating human expertise with Machine Learning for optimized labelling	Automated scraping and labelling of IPTV reselling websites and IPTV services	24/7 automated monitoring, for real-time data at all times	Data collection of IPTV services selected for our customers

Combating illegal streaming of premium content over pirate IPTV services with a 3-step process, based on VO's advanced piracy intelligence model of Assessment, Monitoring and Remediation

PIRACY INTELLIGENCE

01 ASSESS

02 MONITOR

03 REMEDIATE

Identifying and monitoring the main illegal IPTV services most impacting our customers, the APC-IPTV service allows you to fight against this type of piracy effectively and swiftly

ALWAYS EVOLVE

viaccess·orca

ASSESS

01
- Comprehensive research and analysis to identify the main illegal IPTV services
- Geo-driven, multi-lingual search in various languages, including: English, Spanish, German, French, Italian, Portuguese, Mandarin, Russian, Arabic, and Hindi
- Customized search options available per customer's requests
- Full information retrieval including country, language, audience, Who-is info, ISP and registrar, business model, backend analysis, pricing, contacts, social networks, app store pages, and more

MONITOR

02
- Automated scraping and labeling of storefront information
- Automated monitoring and data collection of selected IPTV services
- Subscription purchasing and full-service installation for further information and evidence collection
- Automatic data retrieval and real-time updates, including channels list, servers mapping and evidence collection
- All information accessible via the VO Anti-Piracy Center portal or exposed through REST APIs

REMEDIATE

03
- Take-down notifications to pirate video delivery chain services, including infrastructure, server providers and more
- Removal of illegal apps from application stores, ads removal request, suspension of payment accounts
- Watermarking extraction available, powered by VO Dynamic Watermarking
- Full, detailed status reports to track KPIs and follow up progress
- Pirates OTT decoders, websites, applications and Kodi add-on investigations
- Support to legal actions, and support IP and DNS bans in line with local legislation

Why VO?
