1
Day to deliver all platforms

Whitelabel

FULLY INTEGRATED MULTISCREEN TV APPS

Deployed with a powerful CI/CD build chain, our Whitelabel Multiscreen TV Apps share 50% of code across platforms. Seamlessly embedded with VO services, they are the perfect solution to complement our E2E offerings.

Tier-1 STB

FULLY INTEGRATED STB APP

A high-performance and tailored offering, VO's solution is natively available with all its services. Designed for STB and built with Kotlin code, it combines powerful functionality with an elegant look and feel. This smart solution adapts to every customer, providing the ultimate STB experience.

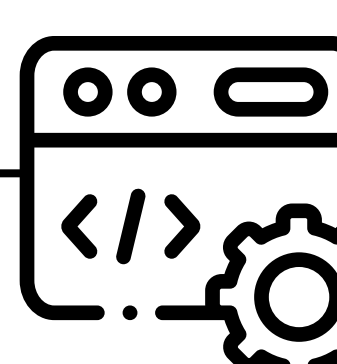

The VO Difference

EXCLUSIVE IN-HOUSE INNOVATION

In-house Player

VO Secure Video Player: Developed and maintained in-house, this powerful tool is deployed worldwide.

In-house Backend

Proprietary backend, constantly improved and deployed worldwide for major customers.

In-house Analytics

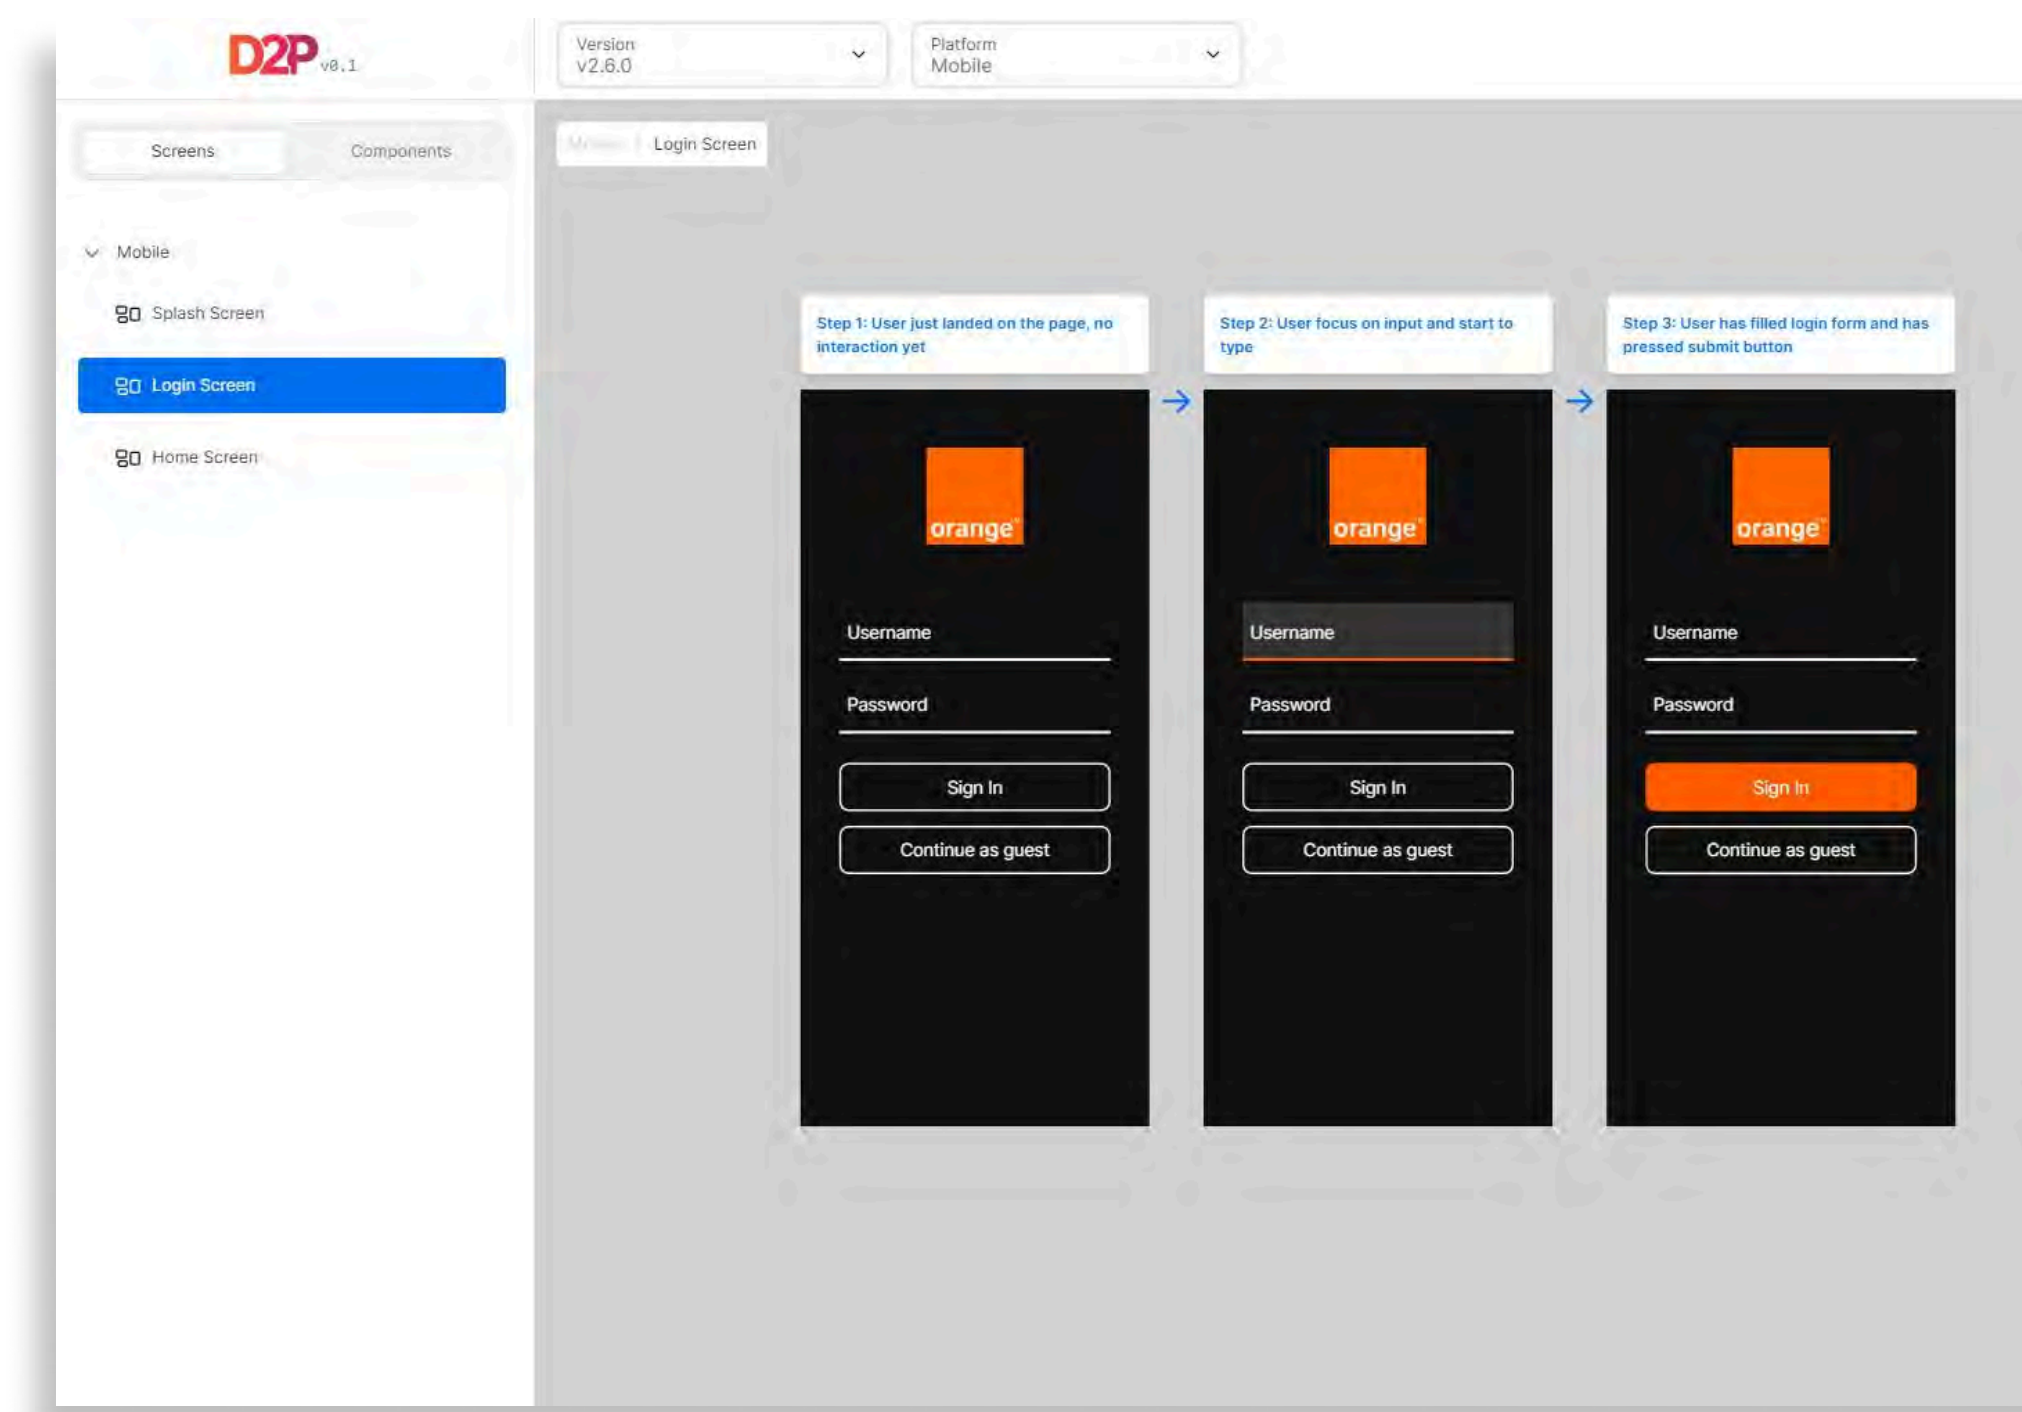

Pre-integrated QoX dashboard, providing tailored insights for an enhanced viewing experience and improved customer journey.

VO TVApps: The Ultimate Customization Experience

DESIGN-DRIVEN APP DEVELOPMENT

VO TVApps is a fully integrated, NO CODE customization solution that guides you from design to deployment, offering multiple benefits:

- Dedicated Sandbox serving as main entry point for TV Apps design
- Data driven design for UX optimisation
- Comprehensive process across all VO services
- Design & content curation preview
- Up-to-date, versioned design
- Customer-centric software services: Efficient, revenue-generating solutions designed to boost satisfaction

TV Apps Market Position

VO TVAPPS: A GAME-CHANGER IN TV APPS

Game Changer

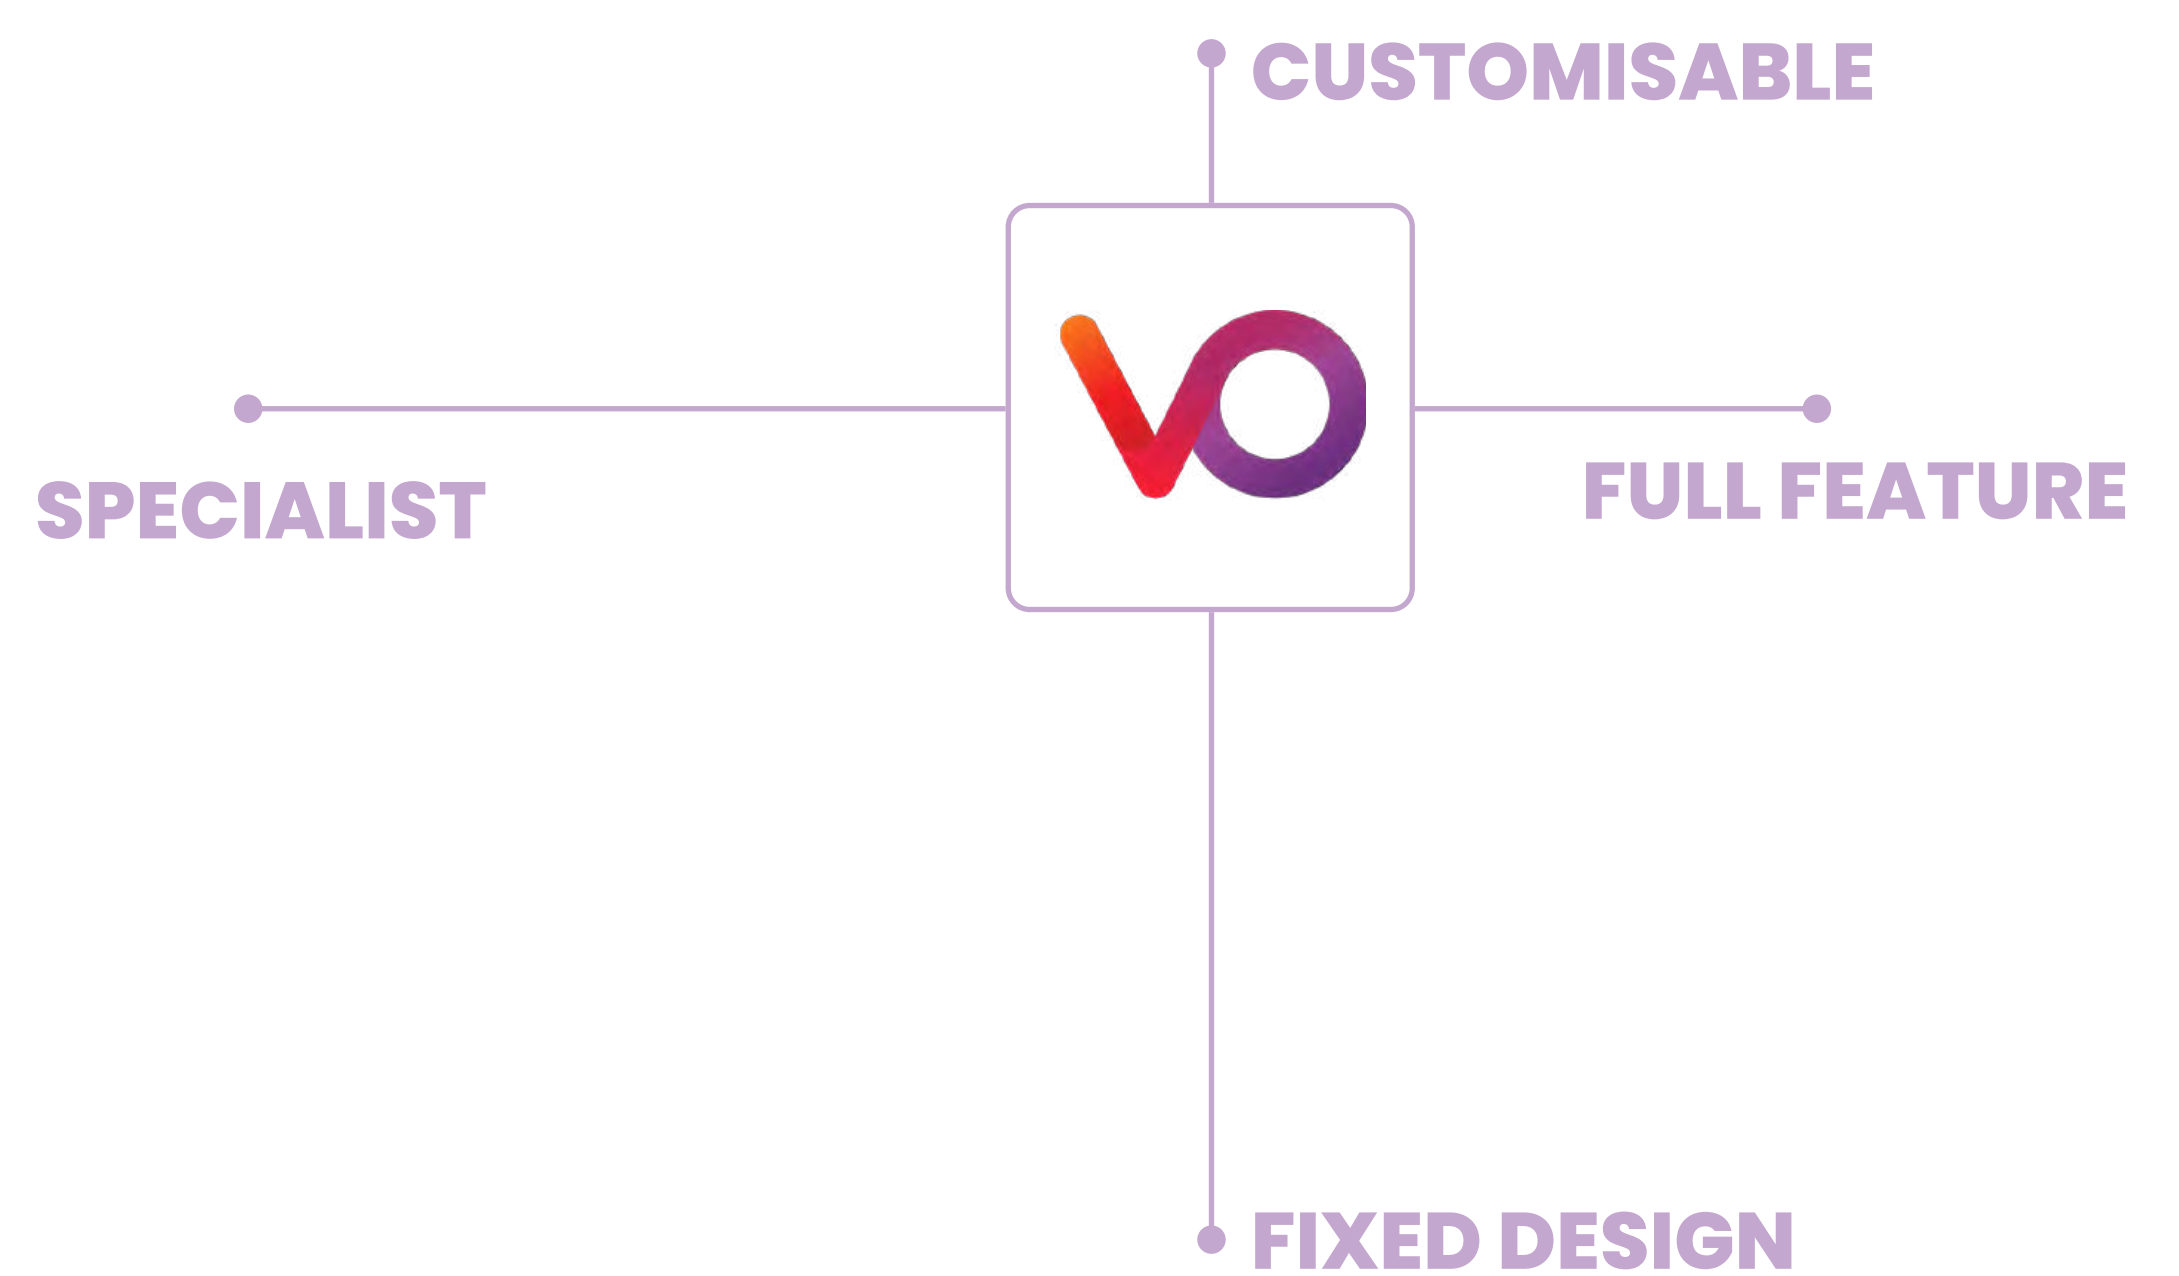

Equipped with the market's most popular features, VO stands out with a game-changing custom tool—driving innovation and continuously pushing boundaries.

End-to-end solution

VO TVApps is integrated with VO's entire E2E ecosystem, providing a specialized, in-house platform.

Quick and smart

Cross-device CI/CD processes, enabling seamless customer deployment.

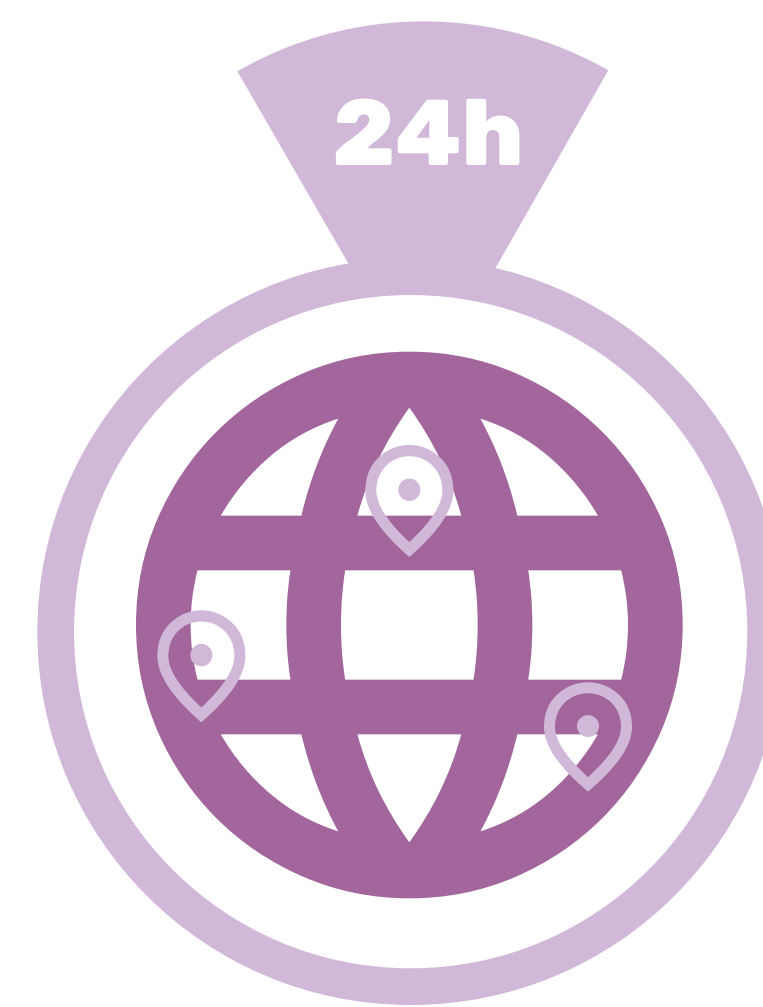

The Future of TV Apps

WHAT ARE THE NEXT STEPS?

Over 90% of essential market features available and integrated with VO services. Tier 1 to Tier 3 operators fully supported.

A dedicated global team ensures responsive feature development and bug fixes, providing around-the-clock support to maximize TV Apps' usage.
